THE PROFILE OF THE ASSOCIATION MOTIVATION

The Association Motivation from Moldova is a non-governmental, independent, apolitical organization, founded in October 2000. It was registered as a juridical person on the 22nd January 2002, at the Ministry of Justice, under the number 2079, and certified as an organization with a public purpose in 2006. The most recent Certificate of Public Utility is for 2013-2016.

The Association Motivation is active in the social domain and focuses on offering assistance to children and youngsters with physical locomotor disabilities and to their families, with the final purpose of social inclusion.

The vision of Motivation

"There are no people with disabilities. There are societies that create barriers and difficulties for people with different needs. Disability is contained in the society itself, but not in the physical condition of each individual" (Simon Brisenden, 1986)

The mission of Motivation

Improving the quality of life of people with disabilities and achieving a higher degree of their social inclusion.

The Association Motivation is member of more networks and alliances in the sector:

Since 2006 member of **EASPD** (European Association of Service Providers for People with Disabilities) with the headquarters in Brussels.

Since 2003 – founder member of the **AOPD** (Alliance of NGO for People with Disabilities)

Since 2003 - **CNTM** (National Council of Youth in Moldova)

The Association Motivation is accredited as an organization to host volunteers via international programs.

STRATEGIC OBJECTIVES 2012-2016

Strategic objective 1. Creating conditions for inclusion of children and young people with motor disabilities

Specific objective 1.1. Psycho-physical rehabilitation / recovery

This objective will be accomplished by organizing the following services and activities: sessions of active recovery (physiotherapy, psychological support), development of life skills including using the "peer to peer" strategy for active recovery. These activities will be held in the Center for Independent Living, but does not exclude the possibility to organize them in other locations.

Specific objective 1.2. Increase mobility of children

This objective will be achieved by providing specific mobility equipment adjusted to the needs of the children and young people, as well as other supporting equipment depending on the needs of each beneficiary. Activities will be carried out in close relation to objective 1.1.

Specific objective 1.3 Socialization and Social Inclusion

There will be organized social activities, social interaction, participation in social and cultural events. Beneficiaries will be encouraged and prepared to actively participate in social and cultural activities in their home towns.

Expected results: With these activities we aim to achieve visible results in terms of enhancing personal autonomy and better physical condition of each beneficiary. Beneficiaries will have an active social behavior which will make them feel valued, with equal rights in the society.

Strategic objective 2. Raising the independence of young people with physical disabilities

Specific objective 2.1. Psycho-physical rehabilitation / recovery

Specific objective 2.2 Increasing mobility of young people and knowledge on mobility and social activism

Specific objective 2.3 Increasing the level of economic independence

These will sum up the following actions and activities: sessions for vocational guidance, support in the job search process and support for employment.

The following results will be achieved: the number of youngsters trained and supported for employment is increased, improving the economic situation, a higher degree of social inclusion is achieved.

Strategic objective 3. Creating a positive attitude towards people with disabilities from their own families

Specific objective 3.1 Increasing the level of knowledge about disability

The following activities will achieve this objective: informative seminars, rehabilitation sessions for parents and children, awareness and informative activities.

Specific objective 3.2 Develop a positive attitude towards the persons with disabilities

Through informative and awareness activities, home support and involvement of media in presenting a correct image of people with disabilities will achieve the objective.

Specific objective 3.3 Enhancing skills through adequate education of persons with disabilities

The beneficiaries will participate in informative seminars, rehabilitation sessions for parents and children, they will also inform themselves from additional informational materials, including electronic ones.

The following *results* are expected: a higher degree of acceptance from the society of persons with disabilities, promoting positive images in society, changing the behavior and attitudes towards people with disabilities, a high level of knowledge and skills on how to support children and youth with disabilities.

Strategic objective 4. Decrease the discriminatory attitude towards people with disabilities

Specific objective 4.1 Increasing acceptance level of people with disabilities

Seminars will be organized for different individuals and organizations / institutions, social action, promoting success stories.

Specific objective 4.2 Improving the image of people with disabilities

This goal involves working with journalists, participating in TV and Radio shows with the participation and about people with disabilities.

Specific objective 4.3 Promoting non-discriminatory values

The objective will be achieved by organizing community activities, informative workshops and outreach activities in the community.

Strategic objective 5. Optimise the legal framework for improving the situation of persons with disabilities and their families under the regulations of the UN Convention on the Rights of Persons with Disabilities.

The objective can be achieved through: development of proposals for improving social policies, roundtables, debates, meetings with APL and APC, participation in public discussions.

Expected results: contribution to the improvement of the legal and regulatory framework and bringing it in line with the UN Convention.

IMPLEMENTED PROJECTS IN 2013

Project title: **Social entrepreneurship for people with disabilities**

Beneficiaries:

- 14 ngo supporting people with disabilities
- Reprerentatives of the CPA and LPA

Location: the entire country

Project duration:
15.09.2012-
14.07.2013

Project Objective:
to initiate positive changes at legislative level, changes necessary for developing the concept of social entrepreneurship.

Funded by:
USAID within the MCSSP Program for consolidation of the Civil Society in Moldova implemented by FHI 360

Activities for 2013

- Selection of the NGOs that will participate in the project
- Traning the NGOs during: 2 exchanging experience workshops, 2 work studies and 2 trainings regarding activities of social entrepreneurship.
- Support in the adjustment of the internal documents of AMM.
- Making of the Feasibility study and Business plan for the Association Motivation
- Organization of 3 roundtables regarding social entrepreneurship.
- Press conference
- Selection and consulting an expert in elaboration of a legal resolution on social entrepreneurship
- Organizing 3 roundtables for discussing the legal resolution on social entrepreneurship
- Formulation of the Monitoring and Evaluation plan, including the activities for organizational development (OD)
- Developing the internal procedures of the AMM

Rezults for 2013

- 15 NGOs were instructed in the social entrepreneurship and accumulated knowledge regarding economic activities
- 9 ONG requested the assistance of the expert regarding the necessary documents for initiating the activities
- During the trainings, there were identified 20 business ideas
- At the initial phase, only 1 NGO – Eco Răzeni launched their business idea
- Other 5 NGOs sell their services or their own products.
- Over 20 representatives of LPA and CPA and NGOs were informed about the development of social entrepreneurship
- 1 expert was hired and he elaborated the legal resolution regarding social entrepreneurship
- The Feasibility study was created and a business plan was composed for initiating the business by the Association Motivation called: Association MOTIVATION – a role model for other NGOs
- AMM created and developed many documents for internal use: Procurement Manual, Instruction Manual regarding Human Resources, Human Resources Policy, Manual Financial Rules and Communication Strategy;

Feedback from the beneficiaries

- Social entrepreneurship appears to help in the first place the social inclusion of the people with disabilities, to encourage the employment, to support the social activities of the NGOs. The information and consultations from the trainings are very useful. There were acumulated vast and useful knowledge to start a entrepreneurship activity.

- Our organization Women's club *Inspiration* benefited from the trainings of this project implemented by MOTIVATION, being selected thanks to the Intention Letter. They started with informing us about the social entrepreneurship practices existent in Moldova, about the difficulties that we can have when we will want to initiate economical activities in our NGO.

- I think that these seminars were welcomed and very useful for the representatives of NGOs.
- The materials that we received during the seminars help me very much for writing a business plan.
- The training course was free and we have managed to save some money for other activities.
- The knowledge accumulated about social entrepreneurship make me braver and motivates me to start a business.
- The Association MOTIVATION organized this training cours at a high level.

ACTIVITIES AND RESULTS OF THE PROJECT PRESENTED IN PICTURES:

Project title: Social entrepreneurship for people with disabilities

Project Title: Promoting the employment and social integration of people with disabilities from Moldova

Beneficiaries:

People with physical disabilities from Moldova, employers, representatives of the LPA and CPA

Location: the entire country

Project duration: 01 January 2012 – 31 December 2013

Project objective: to offer support and promoting the employment and social inclusion of people with physical disabilities from Moldova

Funded by: SOIR Moldova

Activities 2013

- Creating the support service for at least 20 youngsters with disabilities for enrolling to studies and or, joining the workforce. There were organized the following activities: a work visit, creating the support service for youngsters with disabilities, launching the webpage "Employment", initiating a partnership with the National Employment Agency.
- Motivation and education of socio-professional skills of 35 youngsters with physical disabilities via access to studies and motivation in finding a job. There were planned 5 trainings.
- Promoting the right to work among people with disabilities and raising awareness of the public society and of the decision makers by organizing: a poll; organizing a Fair; editing a employment calendar; Participating in a talk show and Organisation Film Festival.

Results 2013

- The support service for youngsters with disabilities was created, launched and promoted
- There was created the section *Employment* on the AMM (www.motivatie.md).
- Successful partnership with the National Agency for Employment which consists in solving the employment cases of youngsters with disabilities and participation at Professions and Crafts Fair
- 42 beneficiaries participated in 6 trainings. Out of them, we motivated: 15 people decided to continue their studies or to search for employment; 13 youngsters to develop a business at home; 9 youngsters to find a job; 5 youngsters to develop their life skills and to continue their studies and to search for a job.
- 3 helpers involved and informed on how to offer support to young people with disabilities
- 68 rep. employers took part in the poll.
- Taking part in the Career Fair (represented by SRL Kintaly).
- 100 calendars for promoting the employment were published and distributed.
- AMM appeared in 65 publications (articles, press reports) – out of which, in 14 of them it was discussed the promotion and employment of people with disabilities.

Feedback from the Beneficiaries:

- I participated in the training of entrepreneurship. I learned how to organize a small business. I want to do something so I can support myself and my family. It is important that I learned what a business is and how to manage it. Now that I know how to develop an idea, I will search for resources to implement it.
- Until now I was staying mainly at home. I was invited to participate at a seminar in Vadul lui Voda by MOTIVATION. I didn't know I am allowed to work, even if I wanted this thing from a long time. With the help of Motivation, I hope to find a training course where I can learn a profession. I have gained trust in my own forces. I am returning home with new hope.

ACTIVITIES AND RESULTS OF THE PROJECT PREZENTED IN PICTURES:

Project Title: Promoting the employment and social integration of people with physical disabilities from Moldova

**Project title: Monitoring the rights of people with disabilities
from Moldova**

Beneficiaries:

- Persons with disabilities from Moldova

Location: the entire country

Project durement:

Septembre 2012 –
Septembre 2013

Project objective: to monitor the rights of people with disabilities from Moldova.

Funded by: EU via the EIDHR program

Partner – COD Serbia – Center for society orientation- COD

Activities 2013

- Preparation activities
- Training for monitoring of the situation and rights of people with disabilities from Moldova
- The monitoring of the personal experience interviews were completed by 26 persons with disabilities, they acted as monitors. The activity of the monitors were supervised by 4 coordinators.
- Analysis of the raw data from the personal experience and the writing of the report.
- The report is in the process of writing.
- System monitoring and the compilation of the report.
- The system monitoring included the analysis of all legislative papers, relevant for the disability sector in Moldova.
- Monitoring media and of the social attitude included the examination of the way media (printed and online) from Moldova approaches people with disabilities. The report is in process of completion.

Results 2013

- Over 169 interviews were completed out of which 149 were validated, the transcript is in a Word file.
- Conclusions included:
 - the legal framework of Moldova ensures, at least at theoretic level, the full benefits of all human rights for people with disabilities as well.
 - people with disabilities are still discriminated, especially in the education, health and work sectors, which has a negative impact over the life standards and reduces the autonomy and the ability to fully participate as active community members.
 - other conclusions and detailed recommendations can be found in the full report System Monitoring.
- There was organized a study trip of the implementation team to Serbia, to the project partner - the Centre for society orientation (COD), to learn from their positive experience in the sector of promoting the rights and monitoring the rights of people with disabilities.
 - In November, 30 people (the implementation team and the monitors) participated in a seminar on the methods of formulating and using the holistic report, with the purpose of making social changes with the focus on protection of the rights of people with disabilities.

Feedback from the visit in Serbia

- I have discovered many interesting and useful things in Serbia that we can implement in our country because the necessary legislation exists and it supports people with disabilities. It is important that we visited state institutions as well as NGOs, allowing us to make a complete picture over the social protection of people with disabilities in Serbia. The presentation of the legislation, of the mechanisms of its implementation, combined with the direct presentation of the services offered in the sector, allowed us to understand the functioning of the system for social protection of people with disabilities.

Feedback from the training

- I participated in the first training; I made monitoring and now I participated in the second training. I learned how to make the Report of infringement of our rights. It is important that I learned these things, they will help us to speak with the responsible people and to find solutions.

ACTIVITIES AND RESULTS OF THE PROJECT PREZENTED IN PICTURES

Project title: Monitoring of the rights of people with disabilities
from Moldova

Project title: **Free in action**

Beneficiaries:

- People with disabilities and people with limited mobility (mothers with small children, elderly people, people with temporary disabilities and under recovery, etc.)

Location: Chişinău city

Project duration:
September 2011 – 5 December 2012, with an extension until 2013

Project objective: to decrease the level of discrimination of people with physical disabilities by improving/facilitating the access to the social infrastructure

Funded by: Soros-Moldova Foundation

Activities 2013

- Creating and editing the brochures "Accessibility for all" that will present necessary information to the people with disabilities or to their representatives and to other people from the reduced mobility group – to create the accessibility conditions.
- Organizing the Press Conference to present the results of the project, as a part of the Program: Equality and Civic Participation, round I, Free in Action.

Results 2013

- In the brochure there are presented information regarding the need of creating the accessibility conditions, fragments from legislation, simple examples that allow to have a clearer vision on what accessibility really is
- At the end of the brochure there are indicated the information sources that will allow interested people to gather more necessary information
- It was edited in 600 exemplars, 500 were paid and 100 were published by a company as a donation
- In the show News Moldova we presented the brochure *Accessibility for all* and the *Accessibility map*
- The media events can be found:
<http://www.tv7.md/ro/news/majoritate-rampelor-de-acces-pentru-persoanele-cu-dizabilitati-sunt-impracticabile-21957.html>
<http://www.newsmoldova.ru/society/20130404/193320829.html>

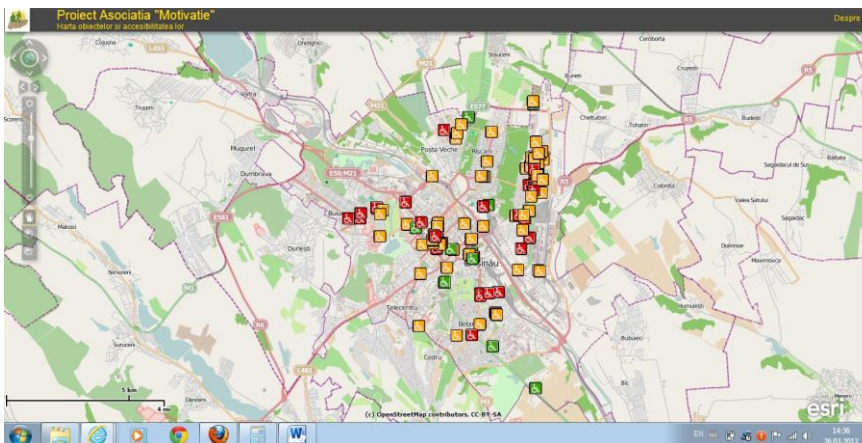

Feedback of beneficiaries involved in the project:

- I received the brochure *Access for all* from the Association Motivation. The information from the brochure was very important to me, now I know what laws exist to request the owners of the shops or pharmacies to follow and make ramps, so I can use them too.

- Before this, when I had to go to the hospital or to the clinic, or any other place, I wasn't aware if that place is accessible with my wheelchair. Now that Motivation made the map, I think it will be easier to know in advance if that place is accessible and if I will need help. It is still necessary to make the Accessible transportation map with the schedule. This way, I will know when and where I can use it and at what time and not wait at the station.

ACTIVITIES AND RESULTS OF THE PROJECT PRESENTED IN PICTURES

Project title: Free in action

Project title: Access for all

Beneficiaries:

- People with disabilities and people with limited or low temporary mobility (mothers with small children, elderly people, people with injuries and in the process of rehabilitation)
- **Location:** Chişinău city
- **Project duration:** 01 October 2013 – 30 September 2014
- **Project objective:** to diminish the discrimination phenomenon of people with physical disabilities by facilitating and improving the physical access to the social infrastructure.

Funded by: Soros-Moldova foundation

Activities for 2013

- Identification of the leader of the initiative group from the city Cahul
- Training the leaders of regional initiative groups from Cahul, Hînceşti, Edineţ.
- Training the volunteers group from Chişinău city.
- Keeping in the touch with the leaders of the initiative groups and with the volunteers.
- Training the administrator of the Accessibility Map, ensuring the updates and its continuous completion.

Rezults 2013

- There was identified and hired a lady beneficiary of the Daily care center AZI for the position of group coordinator in Cahul city.
- There was identified an expert in Leaderism to train the leaders of the groups.
- Group Leaders were trained to efficiently coordinate the teams of local volunteers and to organize activities of awareness, regarding the necessity of adapting the infrastructure according to needs of people with disabilities.
- The volunteers were instructed in the sector of communication and advocacy, how to claim the right of people with disabilities to free access and in the raising awareness of the public opinion on this subject.
- The representative of the company TRIMETRICA trained the administrator of the Accessibility Map on how to use the ArcGIS Online platform to create and place the maps online and in applying the performant tools in correcting and improving constantly the map online.

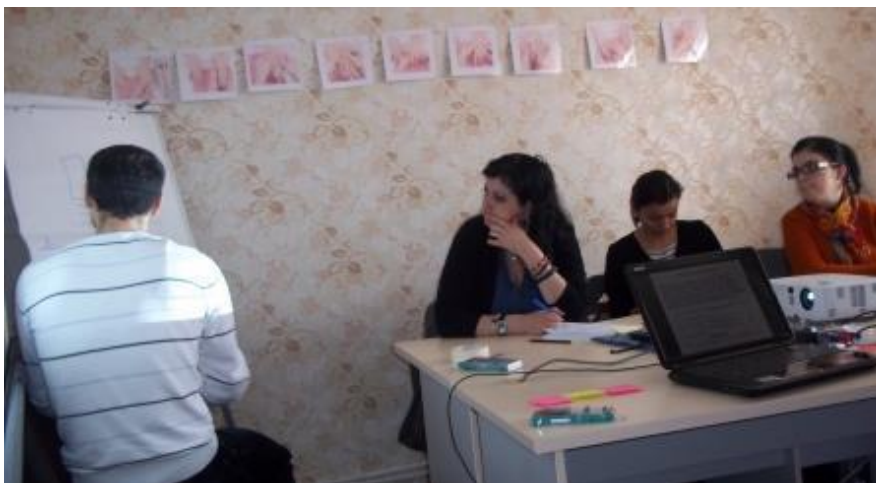

Feedback of the beneficiaries involved in the project:

- I am happy that I participated in the training; I hope that I will become a leader of my group from the raion. There are many problems, often I cannot reach the doctor or the bank if I am not accompanied. I didn't know how to approach that the ramps are made in the right angle. Now I know that these problems need to be pointed out, I know how to work in a team. I think I have many things to learn yet.

- For a long time I wanted to do something good for all of us. Often people think that we, people in wheelchairs, are different, but it is not so. All together, we must change our attitude. Now I know that to be a volunteer means to get involved, to involve your friends, acquaintances and not only. Together we are a force.

ACTIVITIES AND RESULTS OF THE PROJECT PRESENTED IN PICTURES

Project title: Access for all

ACTIVITIES OUTSIDE OF PROJECTS IN 2013

Film Festival “Film without barriers” 4th Edition 2013

Beneficiaries:

- Members of the public society of Moldova.

Location: “Gaudeamus” cinema from Chişinău city

Project duration:
September - November 2013

Main objective of the activity: to inform and raise awareness the general public on the problems faced by people with physical disabilities and the solutions for them.

Funder and Partner:

The festival was organized by the Association Motivation with the support of Hilsferk Austria, BioCountry and the coffee place ForYou.

Activities 2013

- Sessions of planning of the activities, identification of guests, division of the responsibilities etc.
- Sessions of watching and selecting the most representative films.
- There was created and published the agenda of the Festival, press release, the official invitations, the evaluation polls and the informative banner of the event.
- The selected films presented cases of social inclusion in the workforce, independent life and access to services, sport for people with disabilities and other histories from their lives.
- The official invitations and posters were distributed in the institutions of higher education, Ministries, social assistance departments, departments of the city hall etc.
- On the 29 November it was organized the transportation of about 30 people with disabilities (mainly people in wheelchairs).

Results 2013

- To promote the event, there were distributed over 50 invitations, there were placed around 50 informative posters in diferent institutions and it was sent a Press release to around 30 media representatives.
- All in all, at the film festival took part over 350 people in the audience.
- There were presented 25 films, short films, video clips, TV shows which presented cases from the real life of people with disabilities.
- Following the evaluation polls, it was noticed that the majority of the audience members were impressed by the films and they appreciated the focus put on promoting the abilities of people with disabilities, and less focus on charitable and pitiful side.
- It was proposed to run films on the national television channels.
- At the festival were presents the reprezentatives of media from the channels: Radio-Moldova și Jurnal TV.

Feedback from the Film Festival

- Its clear that the films about people with disabilities present more interes to actual people with disabilities, but I think that they will have more public ecou if they would be more promoted in the society. It would be good to attract in the festival people without deficiencies, so that they could see these beautiful examples trully motivational from the life of people with disabiltilles that prouve with their own story that life is worth living no matter the dificulties. As one of the herous of the film presented in the festival said: “the bigger the challenge, the sweeter the victory”.
- The films that I managed to see touched me. Some of them brought tears to my eyes, others made me laugh from my heart but none of them left me indifferent. I only regret that I didn’t manage to see them all as the festival took place during a work day.

**Prevention campaign against child abuse:
Protect my childhood**

Beneficiaries:

- People with disabilities

Location: Chisinau city

Duration of the activities: August – November 2013

Main objective of the activity: to hire a group of people with disabilities to staple 710.000 informative flyers at the electricity bills.

Funder and Partner:

The campaign was organized and funded by UNICEF Moldova and Gas Natural Fenosa.

Activities 2013

- Selection and preparing the youngsters that would be able to successfully complete the stapling of the informative materials.
- Created a contract for providing services which was analyzed by a jurist.
- Employment of young people and offering support at the workplace, permanent monitoring of the young people.
- Contracting several taxi companies for the transportation of the young people in wheel chairs from home to work.
- Organizing the warm lunch for the group of young people because they cannot afford the food and sometimes the work day was more than 6 hours.
- Identification of a group coordinator, besides the coordination tasks, this person would have to pack the bills, every day.
- Preparing the staff of Union Fenosa to accept the young people with disabilities in the work process.

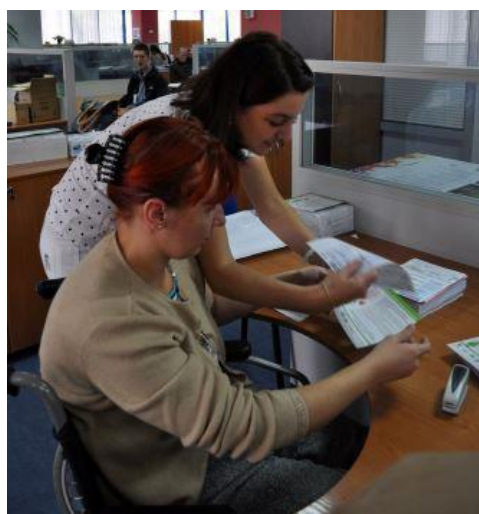

Results 2013

- 8 people with disabilities were selected, trained and hired.
- The youngsters selected to be hired, signed a contract of providing services.
- 710.000 informative flyers were stapled at the electricity bills.
- Support offered to the group during 3 months on behalf of the consultants in assisted hiring to solve any difficulties and to monitor at all times the young people at work.
- With the purpose of offering equal chances to arrive at work, for young people in wheel chairs it was hired the company “Davilar Trans” SRL: taxi service 14448.
- According to the contract, the young people benefited of warm lunches to go in every day, for 1 month.
- With the occasion of the Film Festival ‘The Film without barriers from 29 November, we managed to offer to each young person a certificate of motivation after their first experience with the workforce.

Feedback from the beneficiaries involved in the project:

- I treasure this opportunity to prove myself professionally, says Nadejda Banari, a young girl in wheel chair. I always wanted to work and to have the chance to have a salary with a decent work. I have never imagined that I will be working with a team so big and so pleasant. Then I got the trust that I will overcome the difficulties and that I will find a job. After many attempts to find a job, I was hired in the team of specialists at Motivation to support other young people just like me to form independent life skills, work skills and to prove that people with disabilities can be trust worthy employees, capable of completing their tasks.

ACTIVITIES AND RESULTS OF THE CAMPAIGN OF PREVENTING THE CHILD ABUSE PRESENTED IN PICTURES

”Volunteering for you”, activity implemented by the
Association Motivation from Moldova, with the occasion of
NWV 2013

<p>Beneficiaries:</p> <ul style="list-style-type: none"> • Society members <p>Location: Chişinău city, Hînceşti city and Hînceşti raion</p> <p>Duration of the activities: 27 -31 May 2013</p> <p>Main objective of the activity: to raise awareness among the society regarding the inaccessibility of the infrastructure for people with physical disabilities, especially, people in wheel chairs.</p> <p>Funder and Partner: The activity was implemented by the Association Motivation from Moldova during the National Week of Volunteering (NWV) 2013</p>	<p style="text-align: center;">Activities 2013</p> <ul style="list-style-type: none"> • In the action NWV 24 volunteers got involved, evaluating the access in over 553 buildings with social function, from 5 main districts of the Chisinau municipiu. • To this campaign, there were involved young people with physical disabilities beneficiaries of the Association and students, interested in by this activity. Therefore, each day a team was active in a sector. Any other volunteer could have joined the team by contacting the Group coordinator – a specialist of the Association, and to meet us at the planned time and place. • The event was promoted by several media company. 	<p style="text-align: center;">Results 2013</p> <ul style="list-style-type: none"> • Following the evaluations it was noticed the following results: 24 buildings have appropriate ramps ; 36 have partially accessible entries; 34 buildings were inaccessible; 49 buildings have ramps with metal rails; 485 buildings don't have any type of ramps ; 40 buildings have the entrance at ground level and 14 buildings have a basement entrance level. • The involvement of the society was low, being only of taking pictures of the buildings (accessible or not) and sending the info via the email or posting it on facebook. • The press had a bigger interest, they criticized the local public authorities because they do not respect the necessary standards in constructions and the city is inaccessible for people with physical disabilities and people with low mobility. • Links: http://yam.md/ro/story/1347375;verificam-accesibilitatea-rampelor-89167/;http://www.trm.md/ro/social/chisinaul-necesita-o-infrastructura-adaptata-persoanelor-cu-mobilitate-scazuta/;http://www.timpul.md/articol/chisinaul-nu-respecta-drepturile-persoanelor-cu-dizabilitaifizice-44145.html http://www.europalibera.org/content/article/24999933.html.
--	---	---

Feedback from NWV

„This activity proves onces again how unprepared is our society to include people with disabilities. The basic needs are denied when at the exit of one’s home there are stairs and one cannot benefit from the social services, to wich it should have unlimited access”.
